REGINA, Dec. 5.

A discussion on the proposition to submit the question of license or prohibition to a vote of the people of the Territories, took place on Friday and Saturday. On the opening of the legislature on Saturday it was stated on the authority of the legal experts that the assembly had not power to legislate for such a vote. The proposition was withdrawn in committee on the whole.

For the vote, Jelly, Thuburn, Davidson, Oliver, Turf, Clinknick and Ross were champions of the committee.

Against the vote, Haultain, Mitchell, Sutherland, Reaman, Plaxton, Hoey, Richardson, Neff, Betts, Tweed, Cayley, Lineham and Brett.

On Monday, Reaman, Cayley, Sutherland and Thuburn, gave notice of motions regarding the liquor question.

Reaman's was to ask the federal government to give the assembly full powers to deal with the question.

Sutherland's was similar.

Cayley's was to ask for power to introduce a license system.

At a caucus of members who had voted against the power of the assembly to submit the question, held Monday night it was resolved that a motion by Haultain seconded by Brett should be substituted for Reaman's, Sutherland's and Cayley's.

This motion asked that a vote be taken by the federal government or else that the assembly be given power over liquor question, similar to that exercised by the provinces. It was pointed out by some that the provinces had power to regulate, but not prohibit the liquor traffic, and that a vote for the amendment was a vote that the Territories be not allowed power to prohibit the traffic. It was held on the contrary that the provinces held in fact power to prohibit and that the intention was identical in purport with Reaman's motion.

The amendment was carried on the following division.

Yeas.—Haultain, Mitchell, Sutherland, Plaxton, Hoey, Richardson, Neff, Brett, Tweed, Cayley, Lineham, Betts, Davidson—13.

Nays.—Jelly, Reaman, Thuburn, Oliver, Second, Turf.—7. Clinknick was absent.

A bill for the registration of Births, Deaths and Marriages was introduced by Brett.

In committee of the whole on school ordinances act, the clause carried restricting the formation of separate schools districts, the areas already set apart as public school districts.

OTTAWA, Dec. 1.

REGINA, Dec. 7.

An ordinance providing for the registration of Births, deaths and marriages, and for the incorporation of the medical profession in the Territories, introduced by

Dr. Brett, have been passed.

A number of chapters of the revised ordinances have passed their second reading and been in committee of the whole. This work is still going on.

The immigration committee reported against special encouragement to Mormon settlers, and in favor of an immigration system extending to Britain, Eastern Canada, and the United States, managed direct from the Territories.

The estimates will be brought down for consideration on Saturday.

An amendment to the municipal ordinance allowing married women and widows to vote having the necessary property qualification, was passed.

The session of the assembly will probably close about the middle of next week.

The petition of Geo. Fisher against the return of H. Mitchell of Batoche was thrown out by the assembly on the 5th, on the ground that proper steps, of bringing the matter before the courts, under the contraverted elections act, had not been taken, inasmuch as a fee of \$10 had not accompanied the petition. It was shown that the petitioner had been informed officially by the clerk of the council, that there were doubts as to the applicability of the contraverted elections ordinance, and that they might proceed by petition to the assembly. It was held by some that this was sufficient reason for their not taking formal steps under the elections ordinance. Ross moved that the ordinance should be amended so that they might be enabled to take action under it. Ross, Turf, Oliver, Jelly and Sutherland voted for the amendment. Haultain, Reaman, Plaxton, Hoey, Thuburn, Neff, Brett, Tweed, Cayley, Lineham, Betts, Davidson, Second Clinknick against it, and to throw out the petition.

EDMONTON BULLETIN, DEC 8, 1888.

REPORT.

The committee appointed on November 22nd to draft a proposition for submitting the question of license or prohibition to a vote of the people of the Territories desire to submit the following report.

1. That the vote in the late election of members of this assembly has been used as a basis upon which to compile this report.

2. That to secure a full expression of public opinion it will be necessary to hold a poll at every place where one was held during the late election (with the exceptions hereinafter mentioned) and certain other places where owing to the elections in those districts being by acclamation a poll was not necessary.

3. That the total number of places at which a poll was held, in the several electoral districts in which a poll was necessary was 129, and that in the 3 electoral districts where members were elected by acclamation 23 would be necessary making in all 152.

4. That as at N. Lake polling place in the Kinistino District no resident vote was polled it does not appear necessary that a poll should be opened there. 1. This would reduce the polling places to 151.

5. That certain polling places in the Prince Albert electoral district are at such great distances from any centre of population and from mail communication and have such a small total vote, that in the late elections the cost of recording the 130 votes polled was \$1,032.

6. That it would be inadvisable in estimating the cost of the proposed vote to consider the expenses in these cases separately from the cost in regard to the remainder of the polling places.

7. That the names of these polling places are Cumberland, Lac la Rouge, The Pas, Snake Plain, Red Deer Lake, Shell River, Green Lake, seven in all. (a). If it is decided that these cases shall be considered separately, the total number for general consideration is reduced to 144.

8. That all the means necessary to be taken at these 144 proposed polling places can be taken without any travelling expenses being incurred provided that from 2 to 3 months are allowed to elapse between the issue of the proclamation and the day of voting.

9. That the expenses of each polling place, which were in the late elections, five dollars for returning officer, three dollars for poll clerk and four dollars for rent of poll booth may be reduced to three dollars for deputy returning officer and two dollars for rent of booth, or five dollars in all. The poll clerk being disposed of.

10. That it would be necessary to post a notice of the day, hour and place of voting at the polling booth, at least three weeks before the day of voting and 4 similar notices in conspicuous places within the polling division. (c). Each deputy returning officer to be allowed two dollars for filling out and posting such notices.

11. That it would be necessary in order that full information should be obtained as to the boundaries of polling division, the election of proceeding &c, might be as wisely known from 30 to 50 pages containing the information to be published and circulated the cost of which would not exceed \$250.

12. That a returning officer for the Territories would have to be appointed to provide for the carrying on of the election with a salary not exceeding \$250.

13. That an amount of \$250 would be required to cover cost of postage, stationery &c., required by the returning officer in carrying out the proposed election or voting.

14. That the total cost of the proposed vote in the 144 polling places mentioned would be \$1,750.

15. That regarding the 7 polling places mentioned in the district of Saskatchewan the local village to be travelled in reaching them by special messenger, carrying appointment of deputy returning officer and mile would cost \$450 40.

16. That it would be possible to convey the necessary instructions by H. B. C. Packets if that would be considered satisfactory and if the instructions were forwarded to Prince Albert before January 1st, without incurring the above mentioned expense of special messenger.

17. That it would be advisable to defer the vote as long as possible so that all matters stood, so long as the result was not delayed to such an extent that the Dominion Parliament would not take action on it during the coming session.

18. That the terms of license and prohibition should be defined in full by this assembly according to the meaning that is desired they should respectively bear.

That the Dominion Government be asked to give effect to the result of the proposed vote according to the popular wish expressed thereby or to delegate that power to this assembly.

PUBLIC WORKS REPORT

In the Electoral District of Edmonton, comprising the former district of Saint Albert, numerous bridges have been built and portions of road improved. On the road from Edmonton to St. Albert, B. Popin has made improvements to the bridge at St. Albert. There has been a bridge near his place and cleared the road of stumps, etc., for \$22.00. On the trail from Edmonton to Fort Saskatchewan, on the north side of the Saskatchewan river, that portion of the trail between Edmonton and Fort Creek has been improved by laying culverts and leveling the road bed at a cost of \$100.00. The two bridges on the continuation of this trail to Fort Saskatchewan, which were built in 1886, have been repaired at a cost of \$25.00, and a bridge costing \$50.00 has been built over a ravine near Mr. McDonald's place. At the Fort Saskatchewan end of this trail \$40.00 have been spent in bridging over Horse Hill creek. On the trail south of the Saskatchewan, via Clover Bar, at a cost of \$500, road work has been undertaken covering a distance of about 8 miles, and consisting of building a bridge, costing \$100, over Old Man's creek; continuing road across two sloughs, \$40; clearing a road through poplar bluffs, including out roots and doing necessary grading and leveling, \$100; and where required, in all eight contracts to the amount of \$450, and the work of two men 12 days each by day labor. At Fort Saskatchewan a road across a slough between river lots 11 and 13 has been graded and brushed for \$19, and Tuber's hill improved at a cost of \$9; on the trail from St. Albert to Beaver Lake, a bridge costing \$19 has been put over the first of two creeks crossed by the trail; one costing \$4 has been built over Spring creek at the springs, and one costing \$50 over Ross creek. The trail from St. Albert to Fort Saskatchewan has also been improved by constructing a roadway across a swamp necessitating an embankment or dam 100 yards long, 25 feet high and 20 feet wide, with long ditches on each side and a rough the same to drain the swamp, carrying the water into the Sturgeon river. This work was more particularly done on that part of the trail crossing river lot 45 of St. Albert. At St. Albert several bridges have been built. One over Fish Pond Creek costing \$75; one over the river on Pierre Delorme's land (river lot 15) for \$40; one on Joseph Delorme's land (river lot 14) for \$35; one on section 1, Township 54, Range 24, west of the Initial Meridian, for \$75; all the above bridges being on the Lac Ste. Anne trail. Also a bridge at the second crossing of the Sturgeon River by that trail, west of the Fifth Meridian. On River Lot G of St. Albert special survey a bridge costing \$25 has been built over River Lot 3 one for \$40; and on Sections 8 and 7, in Township 54, Range 25, west of the Initial Meridian two bridges have been erected and a road laid through the woods for \$80. Mr. McKenny's contract of \$225 for making a new and more direct road about one mile long from the St. Albert Mission bridge, in a south easterly direction towards Edmonton, is intended to serve as a short cut to the surveyed trail to Edmonton, and to road the large swamp over which the road built last year would seem to have failed to give satisfaction; two hills have been cut down and the surface in covering the same road built across muskrat and in filling and turpicking 900 feet of road; a ravine, a timber swamp, has been filled up with stones and earth, and a bridge 29 feet x 22 built across the ravine between the two hills. A bridge costing \$25 has also been built on the Sturgeon River trail where it crosses River Lot 24, St. Albert, as also a bridge over Carrot Creek, \$40. To return to the neighborhood of Edmonton, the road which has been graded and culverts laid, to a value of \$125. The road to Belmont has been improved, costing \$1. The road to the River school improved, costing \$1. and the Edmonton end of the Sturgeon road at a cost of \$50. Road allowances Township 53, Range 24, north of Edmonton have been graded, ditches made and a road laid at a cost of \$100. A grant was made to make improvements on the road from Victoria to Saddle Lake, amounting to \$100. For this grant and principally with day labor, five bridges were built over the two creeks, one bridge over stream, corduroy roads made and the bridge White Mud River repaired, and sundry repairs made. The creek bridge was replaced by a new one in the first two crossings (Sandy creek; Vermilion creek and a bridge in the Rolling Hills. The corduroy was done over the bridge in the Rolling Hills. The bridge White Mud River was carried away last year by the very high freshets.
